## **PROPAGATING PLANTS: WITH ANDREW MIKOLAJSKI**

We are delighted to welcome **Andrew Mikolajski** to our garden talk sessions. As well as this month's presentation, Andrew will be returning to talk about his passion for hellebores next year – watch this space!

Andrew says: "Many gardeners sow vegetable and annual seeds in spring – not so many are aware that late autumn and winter is a great time for

collecting and sowing seed of hardy trees and shrubs as well as taking cuttings. I will demonstrate how to do this, as well as – time permitting – how to cut up dormant bulbs!"

**About Andrew:** Besides teaching garden design at Warwickshire

College, he also runs an annual series of courses at Lamport Hall. As well as lecturing, Andrew also is a prolific gardening author. Read more on his website, [www.andrewmikolajski.com](http://www.andrewmikolajski.com).
